

Here is a list of the largest verses in the nineteen bibles that I have. The first number is the number of words in the verse. The second number is the number of letters in the verse, followed by the “bible \ book chapter: verse.” I have listed only the verse with at least 70 words. In the New Revised Standard Version 1 Samuel 10:27 is the longest of all the verse only because there is an extra paragraph add to the end of it. For most bibles Esther 8:9 is the longest. The verses are sorted according to the word size for each book.
