

Here is a list of the largest words in the nineteen bibles that I have. The first number letters in the word, followed by the “bible \ book chapter: verse.” I have listed only the words with at least 17 letters. The Message, Luther, and BBE have the largest words. Most of the largest words are hyphenated words and are not really a single word. Many of the words in Luther’s bible have the word “und” in the middle which means “and”.
