

The first column is the first name. The second column is the percent of the US population that has that first name. The third column is the running percent of the US population that has been accounted for up to that has been accounted for up to that point in the original list. The fourth column is the rank that the name has in the list. The fifth column is an approximate number of persons with that first name based on the second column and a 2000 population of 141,080,000 females only.
